SUMMARY

Frontend Developer with a strong interest in building modern, user-friendly and responsive web applications. Skilled in HTML, CSS, JavaScript, React.js and Tailwind CSS, with hands-on experience through personal projects, training and a Junior Data Analyst internship. Passionate about learning new technologies, improving problem-solving skills and turning ideas into practical digital experiences. Currently exploring the MERN stack and modern web development technologies.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), HTML5, CSS3, TypeScript (Basic Knowledge)

Frontend Technologies: React.js, Tailwind CSS, Responsive Web Design, Component-Based Development

Web & API: REST API Integration, Fetch API, JSON, DOM Manipulation, Event Handling

AI & Automation: n8n, AI Agent Development, Prompt Engineering, Workflow Automation

Data & Visualization: Python, Power BI, Data Cleaning, Data Visualization

Backend: Node.js (Basic Knowledge)

Developer Tools: Git, GitHub, VS Code

EXPERIENCE & TRAINING

Junior Data Analyst Intern — InfoLabz IT Services Pvt. Ltd. | 2 Months

- Worked on practical data analysis tasks using **Python and Power BI**, including data cleaning, analysis and visualization.
- Created charts and dashboards to present data insights in a clear and understandable format.

React JS for Modern Web Development — 30-Day Bootcamp

- Completed a 30-day hands-on React.js bootcamp covering React fundamentals, components, JSX, state management, forms and project development.
- Built practical projects including a To-Do List and Calculator using React.js and Tailwind CSS.

MERN Stack Development Training — Disha Computer Institute | Jan 2026 – Present

- Practical training covering MERN stack development, HTML and CSS, with hands-on web development exercises.

PROJECTS

AI Travel Agent | n8n, Google Gemini, Telegram, Google Sheets

- Built an AI-powered travel assistant using n8n and Google Gemini with Telegram as the user-facing interface.
- Enabled conversational access to trip/package details, destinations, pricing, itineraries and hotel information.
- Automated booking confirmation details and appended confirmed customer information to Google Sheets.

AI Hospital Receptionist | n8n, AI Agent

- Built an AI-powered hospital receptionist workflow prototype for doctor, hospital and appointment-related queries.
- Designed conversational interactions for hospital information and common reception requests.
- Developed the complete workflow in n8n as a practical AI-agent project.

Personal Portfolio Website | React.js, Tailwind CSS

- Developed a portfolio website showcasing skills, projects, education and certifications using reusable React components.
- Implemented About, Skills, Projects, Education, Certifications and Contact sections with Tailwind CSS.
- Added GitHub and LinkedIn links for professional profile access.

Currency Converter | HTML5, CSS3, JavaScript (ES6+), REST API

- Developed an interactive currency conversion web application using HTML, CSS and vanilla JavaScript.
- Integrated a REST API to fetch exchange rates dynamically; implemented currency swapping, input validation and API response handling.

To-Do List Web App | React.js, Tailwind CSS

- Developed a task management web application with add, edit, delete and mark-complete functionality.
- Built the interface using reusable React components and Tailwind CSS.

Calculator Web App | React.js, Tailwind CSS

- Built a calculator supporting arithmetic operations, +/- toggle, clear, delete and backspace functions.
- Created the interface using React.js and Tailwind CSS.

Tic-Tac-Toe & Rock Paper Scissors | HTML5, CSS3, JavaScript

- Built browser-based games with interactive gameplay, result handling and score tracking.
- Implemented two-player Tic-Tac-Toe with win/draw detection and restart, plus user-vs-computer Rock Paper Scissors with random choices.

EDUCATION

B.C.A. – Bachelor of Computer Applications — Monark University | 2026 | CGPA: 6.88

Relevant Coursework: Web Development, Programming, DBMS, Data Structures, Software Engineering, Computer Networks

12th — Gujarat Secondary and Higher Secondary Education Board | 2023 | 70.71%
